Ethiopian Community Center of Las Vegas Official Statement

Dear Ethiopians, it is a public knowledge that TPLF (Tigray People's Liberation Front) had been a major cause to the instability and turmoil in Ethiopia for over 27 years. TPLF was also responsible for the unlawful imprisonment of many citizens, corruption, and ethnic cleansing in different parts of the country on the account of people's religion and ethnicity.

On November 4, 2020 to add to it's long lists of crimes against fellow Ethiopians this terrorist Junta group TPLF committed a deliberate and unspeakable attack on our Ethiopian Defense Forces which was tasked in protecting our Country borders and keeping the peace for many decades. Following the attack on our Defense Forces this murderous Junta group TPLF committed one of the worst ethnic cleansing in recent history in the cities of Gulisso and Mycadra which resulted in the deaths of several thousand innocent citizens.

Therefore, the Ethiopian Community Center of Las Vegas condemns these long lists of heinous crimes committed by this Junta terrorist group TPLF on our people, troops, civilian and Military facilities.

The Community Center would like to extend its deepest condolences to the families of Ethiopian citizens and the members of Ethiopian Armed Forces who lost their precious lives in this ordeal. Furthermore, in this historically critical time the Community Center would like to announce its full support and solidarity of the Ethiopian people and government in securing the peace, apprehending all parties involved in these heinous crimes committed against our citizens and bring them to justice.

Finally, the Ethiopian Community Center of Las Vegas urges all Ethiopians and Ethiopian decedents who are living abroad to give a financial and material support to Ethiopian government in the effort of rebuilding the damage civilian facilities and help to provide humanitarian support to our people victimized by the tragedy. May God protect Ethiopia and her people.
